

**MOLECULAR****DIAGNOSTICS AND THERAPY**

...where technology meets patient care

Dr. Gopesh Swaroop

Senior Consultant Pathologist

MBBS, MD Pathology

About

Dr Gopesh Swaroop is a Senior Consultant Pathologist with Molecular Diagnostics and Therapy and has more than three decades of experience in the field of pathology. Dr Swaroop has been known for his precise diagnoses and his continuous contribution towards providing quality services in the field of pathology to various healthcare providers and institutions in the past several years.

Dr Gopesh pursued his MBBS from Maulana Azad Medical College, Delhi University, followed by an MD in Pathology from the same college and university. Then, he further enhanced his expertise in his field of specialisation by pursuing a Junior & Senior Residency at Maulana Azad Medical College & LNJP Hospital, New Delhi. His excellent educational foundation has been a major factor in helping him maintain a systematic and detail-oriented approach in his work.

Dr Swaroop contributed to medical academics as well by serving three years as an Assistant Professor of Pathology at Eklavya Dental College, Kotputli. Besides academics, his pathology practice with the establishment of a diagnostic clinic has come forward to help raise dependable laboratory services. This in-depth understanding of long-standing professional practice reflects dedication, discipline, and a deep regard for pathology workflow.

He has attended many national and international conferences and has taken due care to ensure that his professional development and information about the newest happenings in the field of pathology are always updated. Dr Gopesh Swaroop contributes greatly to the area of pathology at Molecular Diagnostics and Therapy. Having the distinction of vast experience, an academic background, and dedication to ensuring that appropriate diagnostics are being accomplished.
