

**MOLECULAR****DIAGNOSTICS AND THERAPY**

...where technology meets patient care

Dr. Parul Singhal

Consultant Pathologist

MBBS & MD-Path

About

Dr. Parul Singhal has more than 20 years of experience as a Consultant Pathologist of Molecular Diagnostics and Therapy with extensive experience in histopathology, cytopathology, and hematopathology. Her diagnostic skills have been regarded as very strong, with a good attention to detail and a strong commitment to ensuring that pathology reports are accurate and reliable to aid in making effective clinical decisions.

In her career, Dr. Singhal has handled cases of over 1,50,000 pathology reports, and this is a measure of her immense hands-on experience in the overall production of quality diagnostic services. Her work has supported clinicians in a broad domain of medical specialties and has greatly served the purpose of patient diagnosis and treatment planning.

Dr. Singhal has a Bachelor's Degree in MBBS and a Master's Degree in Pathology and has built a strong experience in various fields of pathology. She still plays a role at Molecular Diagnostics and Therapy with her clinical experience, analytical ability, and commitment to the high standards of diagnosis, which makes her a reliable and respected figure in the field of pathology.
