

**MOLECULAR****DIAGNOSTICS AND THERAPY**

...where technology meets patient care

Dr. Sakshi Kalra

Consultant Radiologist

MBBS (PGIMS Rohtak), MD Radiology (GMCH Nagpur)

About

Dr. Sakshi Kalra is a Consultant Radiologist at Molecular Diagnostics and Therapy who has a work experience of more than 3 years in diagnostic radiology. She has also been trained in diverse imaging modalities, is accurate, clinically clear and patient-oriented. Her work gives credible diagnoses and effective clinical decisions in several specialities.

She has done her MBBS in Post Graduate Institute of Medical Sciences, Rohtak and MD in Radiology, Government Medical College and Hospital, Nagpur. She is also the successful candidate who has passed the First Examination of Fellowship in Clinical Radiology (FRCR-1), which demonstrates her solid academic background and desire to learn continuously.

Dr. Sakshi Kalra is a Senior Resident who worked in Indira Gandhi Government Medical College, Nagpur and later in PGIMER Chandigarh, and also as a Consultant Radiologist in major hospitals. She has also worked as a reporting radiographer, radiography performing, sonography, CT and MRI, fetal medicine, and a gynaecological radiographer. She has also done over 100 non-vascular ultrasound and CT-guided interventional procedures.

Dr. Kalra is an active scholar who has made contributions to national journals and given papers and posters at the renowned radiology conferences. To keep abreast with developments in radiology, she attends workshops, CME programs and other national-level conferences regularly. Her experience in clinical practice, teaching, and commitment to diagnostic quality contribute to her being a valuable addition to the Molecular Diagnostics and Therapy radiology staff.
